

## DIRECTIONS FOR USE

1. Turn on jets
2. Carefully sprinkle 1 scoopful for every 200 gallons of water 15 minutes before use.
3. Continue to circulate water for 15 minutes. Spa may be used 15 minutes after application.
4. Add your favorite Spazazz Aromatherapy crystal or elixir **Tip:** Use it weekly, or more frequently if heavily used, or whenever water appears cloudy or dull.

## FIRST AID

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call poison control center or doctor for treatment advice.

**IF INHALED:** Move person to fresh air if person is not breathing call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

**IF SWALLOWED:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

## STORAGE & HANDLING

Keep in original container. Store in dry, cool, and ventilated place. Don't store with chlorine, liquid acids, or bromine. When not in use securely fasten container.

## PACKAGE DISPOSAL

Thoroughly rinse container to dissolve material. Don't re-use container. Discard in trash. Recommended to wear goggles and gloves when handling. Add only when no bathers present.

## PHYSICAL OR CHEMICAL HAZARDS

**STRONG OXIDIZING AGENT.** Never add water to product. Always add product to large quantities of water. Do not mix with other chemicals. Do not add this product to any chemical feeder. Contamination with moisture, organic matter or other chemicals may cause a violent reaction leading to fire or liberation of hazardous gases. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well-ventilated area. Flood with large amounts of water.
