

Shock Oxidizer

WEEKLY

ACTIVE INGREDIENT:

Potassium Monopersulfate	32.18%
INERT INGREDIENTS:	67.82%
TOTAL:	100.00%

*Equivalent to 3.26% active oxygen

KEEP OUT OF REACH OF CHILDREN DANGER

CORROSIVE TO EYES, SKIN AND MUCOUS MEMBRANES. MAY BE HARMFUL IF SWALLOWED. Avoid contact with eyes, skin and clothing. Wash thoroughly with soap and water after handling. Avoid breathing dust.

See side panel for additional precautionary statements.

Net Weight: 1 Pound

DO NOT PREMIX WITH WATER. ALWAYS ADD TO LARGE QUANTITIES OF WATER.

FIRST AID:

IF SWALLOWED: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

Shock Oxidizer is a powerful oxygen-based oxidizer. When used regularly, this product will help eliminate contaminants introduced by bathers and environmental factors like rain and wind. This product will not raise chlorine levels or produce combined chlorine. This product is gentle on spa surfaces. This product restores sparkle and clarity to spa water. It will not increase calcium hardness or stabilizer levels. This product contains no chlorine or other disinfectants.

PHYSICAL OR CHEMICAL HAZARDS: STRONG OXIDIZING AGENT. Never add water to product. **ALWAYS ADD PRODUCT TO LARGE QUANTITIES OF WATER.** Do not mix with other chemicals. Do not add this product to any chemical feeder. Contamination with moisture, organic matter or other chemicals may cause a violent reaction leading to fire or liberation of hazardous gases. In case of contamination or decomposition, do not reseal container. If possible, isolate container in well-ventilated area. Flood with large amounts of water.

DIRECTIONS FOR USE:

This product is not a sanitizer or algacide. For routine disinfection of pool water or algae control, use an EPA-registered product according to its label instructions. For routine control of microorganisms in spa or hot-tub water, use an EPA-registered product according to its label instructions.

READ ALL PRECAUTIONS BEFORE USE:

Wear goggles and gloves when handling. Use only in swimming pools and spas. Add only when no bathers are present.

DIRECTIONS FOR SPAS AND HOT TUBS:

This product contains no bromine or other sanitizer and should be used for oxidizer treatment only. Regular use of this product will remove most of the contaminants that accumulate in spa water.

WHEN TO ADD SHOCK OXIDIZER TO YOUR SPA: Add this product to spa water after every use, or once per week if the spa is not being used.

HOW TO USE SHOCK OXIDIZER TO KEEP SPA WATER SPARKLING CLEAR:

1. Every time the spa is used it must be oxidized. After every use, add 2 ounces of this product per 300 gallons of water.

DO NOT PRE-MIX WITH WATER. ALWAYS ADD PRODUCT TO LARGE QUANTITIES OF WATER.

NOTE: Apply the required amount of this product evenly throughout the spa with the pump running. Add the full amount at one time using a clean and dry plastic scoop.
2. Run the pump for at least 30 minutes.
3. Turn the jets on and off once or twice after adding this product to improve the treatment.

PUBLIC SPAS: Spas are subject to extremely heavy bather loads. The amount and frequency of treatment must be increased to adequately oxidize non-microbial contaminants and keep water crystal clear and odor free. Public spas that are used daily should be oxidized daily. Add 1-2 ounces of this product per 250 gallons of spa water at the end of every day the spa is used.

STORAGE AND HANDLING:

Keep dry and in original container. Store in a cool, dry, well-ventilated place. Do not store with chlorine, bromine, or liquid acids. Keep container tightly closed when not in use.

PACKAGE DISPOSAL: Triple rinse empty container. Do not reuse container. Discard in trash.
