

Only FROG® provides Fresh Mineral Water for pools and hot tubs so only FROG® Test Strips can precisely measure the reduced levels of chlorine or bromine FROG® uses.

Getting the right reading makes all the difference!

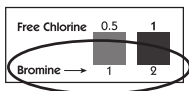

- Water feels softer without all that chlorine or bromine
- Dialing in the right setting on your FROG® system just got easier
- FROG® cartridges and pacs can last up to 50% longer when maintaining the right levels

For FROG® Pool Owners

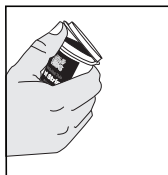

Maintain a low 0.5 to 1.0 ppm FREE chlorine level.

For FROG® Hot Tub Owners

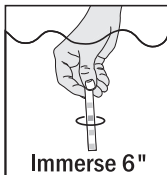

Maintain a low 1.0 to 2.0 ppm bromine or chlorine level.

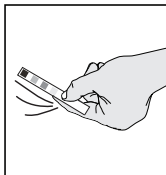

Water Testing in 4-Easy Steps

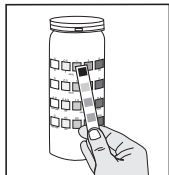

1 Pop open the top.

2 Dip for 2 seconds.

3 Remove with pads up & shake once.

4 Read.

Important: Keep cap on tight between uses. Always test in natural daylight. Store in cool, dry place. Avoid wet fingers inside bottle.
