

Mineral Harmony™

GUARD

Neutralizes Minerals That Cause Staining

CAUTION

**KEEP OUT OF REACH OF CHILDREN
MAY BE IRRITATING TO EYES AND SKIN**

See side panel for additional
precautionary statements.

Net Weight: 16 oz.

Mineral treated spas require the regular testing and balancing of the water for the minerals to perform properly. Mineral Harmony was developed exclusively for use with mineral treated spa water.

Mineral Harmony GUARD is a concentrated product that suspends and neutralizes mineral elements that can stain and corrode your spa.

Mineral Harmony GUARD also acts as a clarifier to cluster unfilterable microscopic minerals together so that they can be removed in the filtration process.

DIRECTIONS FOR USE:

When filling the spa: Add 16 oz. to spas up to 500 gallons of water, before any sanitizer is added. Remove and clean cartridge filter within 24 hours.

Maintenance: If fresh water is frequently added due to evaporation or bather activity, you may need to add extra **GUARD**. Add 1 oz. per 100 gallons to hot tub water while the pump is running. Allow the water to circulate overnight or until the water is clear. This will help to control any mineral staining and will help to protect the heating element from corrosion. If staining continues due to excessive mineral levels in water, increase dosage.

NOTE: Draining and cleaning of spa or hot tub is recommended every 3 months.

CAUTION: Avoid contact with skin, eyes, or clothing.

FIRST AID:

IF SWALLOWED: Call poison control center or doctor immediately. If conscious, immediately give 2 to 4 glasses of water, and do not induce vomiting unless told to do by poison control.

IF IN EYES: Hold eye open and rinse gently with cool water for 15-20 minutes. Remove contact lenses, if present, after 5 minutes, then continue rinsing eye. Call poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Wash thoroughly with cool water for 15 minutes. If irritation develops, call a physician.
